The requirements to access a doctorate in UPV

The requirements that an applicant must meet to be admitted are ruled by Spanish Royal Decree 99/2011. Keep in mind that the information shown here is only a summary. If you have any questions, please contact the Doctoral School.

You can find more details about the access requirements in the following link.

The pre-registration, or aplicación to access, will be studied and resolved by the Academic Committee of the program requested.

An application may be:

- Admitted
- Rejected
- Admitted with Training Complements

The Training Complements are assigned when the Academic Committee that studies the application understands that the candidate has a lack of training to develop the thesis. In these cases it is required that the candidate complete a number of subjects from a master's degree related to the program. You can find more information about the admissions with Training Complements in this link.
