

2.2 The enrollment for the rest of years

The enrollment for the second and further academic years is automatically renewed during the second half of July.

Enrollment will NOT be renewed automatically in the following cases:

- The doctoral student has already defended the thesis in the present year.
- The defense of the thesis has already been summoned (formal announcement of the president of the court) before September 30 of the following year.
- The doctoral student has assigned training complements that have not yet been passed. In this case, an enrollment call will be done in the second half of July.
