

### **8.3.2. Can I disseminate a thesis in RiuNet if it contains confidential information, or if we want to patent an invention?**

Exceptionally, if your thesis has sensitive data, either because there is a confidentiality agreement with a company or because you are considering generating a patent, contact the Doctoral School to ensure RiuNet does NOT publicize any of the aspects that should be protected (article 14.6 Royal Decree 99 /2011 and article 11 of the [Regulations of the Universitat Politècnica de València Doctoral School](#)).
